

SEAT@SUMMIT

Outdoor and social.

OUR BRAND PROMISE

YOUR RELENTLESS ALLY IN EVERY ADVENTURE

What is a brand promise? Our brand promise is a contract between us and our customers – telling them what they can expect from us. It's the standard against which we measure our actions.

'RELENTLESS'

We never give up — and neither does our gear.

'ALLY'

We share a common purpose.

'EVERY ADVENTURE'

We are with you on your journey, from sea to summit.

We'd love to offer attendees of Outdoor & Social 2025 the chance to use our kit, at a great price. Check out the special deals we have over the following pages...

SLEEPING BAGS

Why the Spark?

The Spark is the flagship in our Down Sleeping bag range, and the -9°C version is super versatile for UK conditions.

Hydrophobic down is more resilient to our weather, while the small pack size and high insulation levels of these bags have to be seen to be believed!

[Spark -9°C](#)

FEATURES

The Spark Ultralight Mummy Sleeping Bag Series spans everything from an ultralight down-filled liner, to a mid-winter fast-and-light sleeping bag. Each model uses premium materials and no-frills design to provide cutting-edge performance.

Ultralight does not mean ultra-tight: The Spark mummy sleeping bags are snug but still have adequate wiggle room for the performance-oriented, backcountry user.

850+ FILL Power, RDS-certified, Goose Down with Ultra Dry Down treatment for improved water resistance in damp conditions.

STAFF DEAL PRICE - £190

RRP - £490

[Women's Spark -9°C](#)

The Spark Women's sleeping bag is the perfect option for lightweight adventures. Specifically designed for women, the added warmth and heat retention offers versatility and functionality. Featuring an optimal warmth to weight ratio, the Spark Women's bag is equally compact and comfortable. The women's specific mummy fit is narrower at the shoulder and wider at the hip and features extra down compared to the unisex Spark models.

850+ FILL Power, RDS-certified, Goose Down with Ultra Dry Down treatment for improved water resistance in damp conditions.

SLEEPING MATS

Why Sea to Summit mats?

Our sleeping mats are renowned for their low weight, small pack size, and fantastic comfort. Air Sprung Cell technology distributes your weight perfectly evenly, and the integrated pump sack makes inflating the mat a breeze.

[Ultralight Insulated](#)

FEATURES

If you're looking for a lightweight sleeping pad but don't want to compromise on comfort, durability, insulation or ease of use, look no further than the Ultralight Insulated Air Sleeping Mat. The Air Sprung Cell design delivers stability and support, while our lamination and weld quality set a new standard for reliability. What's more, Thermolite® and Exkin Platinum® insulation deliver the warmth of an ASTM standard R-Value of 3.1 - just perfect for late spring through to early fall camping.

STAFF DEAL PRICE - £55

RRP - £135

[Comfort Light Insulated](#)

Sleeping well when you're backpacking goes hand-in-hand with sleeping comfortably. The Comfort Light Insulated Sleeping Mat uses Air Sprung Cell technology and a hybrid matrix of offset cells to provide amazing stability and comfort. A double layer of cells in the torso increases warmth, while a single layer of cells in the head and legs reduces weight. Thermolite® and Exkin Platinum® are used to optimize heat retention and the multi-function valve enables simple inflation, deflation and the ability to fine-tune your personal comfort level. What's more, the uprated 30D/40D face fabric is quiet and durable, while the lamination technology continues Sea to Summit's class-leading reliability.

STAFF DEAL PRICE - £65

RRP - £175

[Comfort Plus Insulated](#)

The Comfort Plus Insulated Air Sleeping Mat earned a 2015 Backpacker Editors' Choice award for its innovative Air Sprung Cell technology and dual layer comfort. With two separate layers of interlocking air chambers and our multi-function valve, you can fine-tune the top layer to perfection as well as adjust the base layer to accommodate for rough terrain. So, if one side of the pad punctures, the other remains functional until a repair is made. It's also insulated with Thermolite® and Exkin Platinum® for great warmth.

RRP - £190

PILLOWS & LINERS

Enhance your sleep and recovery with pillows and liners, a full sleep system will give you maximum warmth and comfort.

[Aeros Ultralight Large](#)

FEATURES

Perfect for gram counting backpackers, the Aeros Ultralight Pillow has a soft 20D stretch polyester exterior and a silent, contoured TPU air bladder for support and comfort. Inflation, adjustment, and deflation take seconds, thanks to our patent-pending multi-function mini valve. Plus, secure your pillow to your sleeping mat using our unique Pillow Lock system.

STAFF DEAL PRICE - £13

RRP - £36

[Reactor Liner](#)

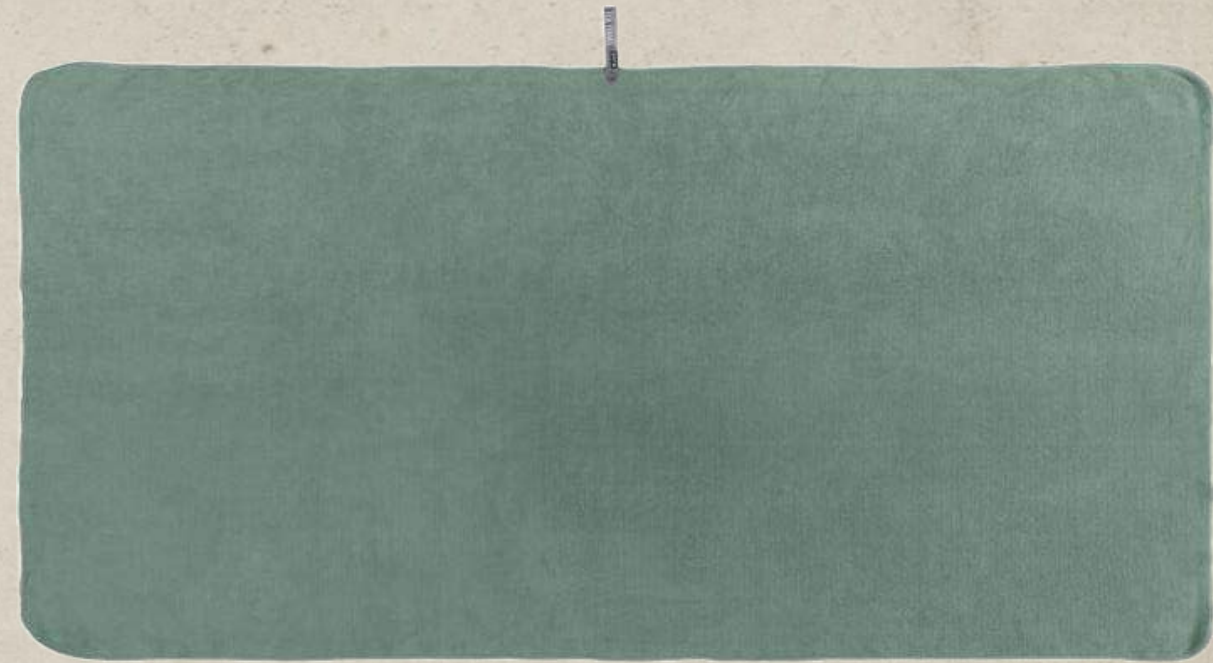

The THERMOLITE® Reactor liner is our top selling and lightest thermal sleeping bag liner. With a mummy shape and Thermolite® Pro fabric, the Reactor Liner uses new infrared technology paired with comfortable stretch fabric to offer extra warmth, versatility, and increased insulation. The drawcord offers added flexibility for premium comfort. Best suited to cold conditions.

RRP - £55

USEFUL BITS

Keep things simple and easy around the camp with the Tek Towel.

[Tek Towel Extra Large](#)

FEATURES

Enjoy the comforts of home wherever you roam with The Tek Towel - a luxuriously soft and super absorbent towel. The microfiber fabric is quick drying and also features that cozy, terrycloth feel for added comfort. With a handy snap-on hang loop, it's packaged in a convenient, zippered pouch for compact packing.

RRP - £28

TENTS

If you're in the market for a new tent, this is an incredible opportunity to grab a fantastic deal on one of our Telos or Alto tents.

Using unique Tension Ridge Architecture, these tents offer unrivalled liveable space, and they're packed with clever features too..

Alto TR2 Plus

FEATURES

The Alto TR2 Plus semi-freestanding tent provides maximum liveability for the ultralight backpackers who are active right to the ends of shoulder seasons. Vertical walls, a tall, oversized door and the same functional details as the standard Alto combine with materials that will keep you warm and dry in windier and wetter conditions. Whenever you camp, you'll have more usable space, better ventilation and more versatility than any other ultralightweight tent – because with good design, 'saving weight' doesn't mean 'cutting corners'.

[VIDEO](#)

STAFF DEAL PRICE - £220

RRP - £555

Telos TR2 Plus

If you camp right to the end of shoulder seasons, the Telos Plus two-person freestanding tent could be your shelter of choice. It offers the same easy setup and ingenious functional details as the standard Telos, with the 'plus' of materials that will keep you warm and dry in windier and wetter conditions. And across all seasons, it provides greater usable space, better ventilation and more versatility than any other lightweight tent in its class.
